H. N. LAWSON, Agent
BEAVER, OKLAHOMA

RAILROAD WITHIN 40 DAYS.

J. Achenbaugh and Jas. Tack of Kansas, and J. H. Morgan of Alva, are in Beaver today and, with the Directors of Beaver Short Line are endeavoring to get together on a contract for the completion of the road within 40 days. The major portion of the contract has been agreed upon and they are now arranging the details. The contract will probably call for \$15,000.00 bonus notes to be procured within two or three weeks from this date and conditioned upon the road being in operation to the town of Beaver City November 1st, 1915. We hope to give our readers a full statement of the terms of the contract in our next issue.

The plans for the terminus have been changed and the terminals located on the west side of town, the road extending to the west side of the town-side. This arrangement would obviate any extra expense or inconvenience in procuring a right-of-way through Beaver for the extension of the road to the southwest, which will inevitably follow, sooner or later. Right here, we can assure the people south and southwest of us that whenever the road is ready to extend to them, we will not put a stone in their way but will help them instead. Beaver has had everything to contend with in building their road and we know what

it means to fight against the pricks. If we hadn't had the most optimistic and liveliest bunch of boosters in the world, we never would have gotten our road. We have met and overcome every conceivable obstacle that could be placed in our way, but at last victory is ours.

Whatever bonus notes finally agreed upon must be raised in the next ten days. Will we do it? Of course we will.

BONDSMEN ASK RELEASE.

C. L. Moon, one of the bondsmen for J. N. Robbins, who it will be remembered was tried before County Judge Spohn several months ago on a charge of violating the liquor law and who was found guilty, Judge Spohn assessing a fine of \$250.00 and sentencing him to serve 100 days in jail, the case being subsequently appealed to the Criminal Court of Appeals, caused the re-arrest of Robbins Monday and asked to be released from his bond. Robbins had intended going to Colorado. He finally agreed to remain in the county and the old bond remained unchanged.

Mrs. Geo. H. Wright, who has been visiting relatives at Wilmore, Kansas, for several weeks, returned home Tuesday. She came over from Ashland with Mr. and Mrs. B. P. Russell.

LIGHTNING STRIKES CITY WATER TANK.

Nearly everybody in town was awakened in the middle of the night, Friday night, by a terrific crash of lightning and thunder. It came like a bolt out of the clear sky, and sounded more like the explosion of a cannon or keg of dynamite than like thunder. Early in the evening a storm had threatened but the clouds passed away and the moon was shining before bedtime. The clouds came up again later however, and this terrific bolt of lightning struck the city water tank. It then began to rain and rained quite hard for a short time. The singular thing about the occurrence was that this bolt was the only lightning during the night. No damage was done to the tank or tower except that the paint was burned off from the top to the bottom of the structure where the bolt struck. The electric light wire in that vicinity was struck at the same time. Two poles were damaged and several bulbs burned out.

ANOTHER GOOD SHOWER.

This section received another good shower Sunday night. The rain came up from the northwest and was preceded by considerable wind which aroused the inhabitants and many of them hiked for the "frigid hole." The storm was only a scare however and no damage was done except to a few small buildings, the greatest damage being to A. M. Burnam's garage which was lifted up and dumped over into his garden. The precipitation amounted to 35 of an inch. Considerable wind is reported from the North Flats, telephone lines being damaged to some extent.

GATE DON'T WANT POOL HALL.

Clifton Cope, of Gate, recently made application before County Judge Spohn for permission to conduct a pool hall at Gate. The hearing was set for last Friday at which time a large number of Gate people were here to remonstrate against the issuing of the license. The applicant, perhaps aware of the opposition, did not appear and Judge Spohn promptly dismissed the action at the cost of Cope.

Mrs. Nettie Brown of Lockwood, is visiting relatives here this week.

KNOWLES 7, BEAVER 6.

The Knowles and Beaver baseball teams played a hotly contested game on the local diamond Sunday afternoon, in which Knowles won the victory by one point, the final score being Knowles 7, Beaver 6. A number of fans from Knowles and Forgan accompanied the visiting team and did their share of playing the game from the grandstand. Beaver baseball enthusiasts were also on hands to root for the home team. The game passed off well with the heartiest of good feeling on all sides. The Knowles players proved themselves gentlemen in every respect and Beaver will be glad to welcome them at any time in future games.

COFFEY-BAESSLER.

Cupid's darts have been flying promiscuously in all directions the past week. Among his most recent victims are Mrs. Hazel Horn-Coffey and Carl Baessler, both of whom reside a few miles west of Beaver, and who were united in marriage the past week.

The bride has lived in the community which is still her home for a number of years and she is held in the highest esteem by all who know her. She is a young woman of kind and gentle manner, refined and cultured and one who numbers her friends by her acquaintances.

The groom is a prosperous young farmer who has demonstrated that stick-to-it-iveness and energy are requisites to success and bring prosperity when pursued. He has a fine farm six miles west of Beaver and is making good.

Their many friends join the Herald in extending hearty congratulations and wishing them a long life of conjugal felicity.

Beaver has been the scene of considerable activity the past week. The little flurry of railroad excitement last week caused many who have had their eyes in this direction to come in a little closer and view the situation from a closer range. Many strangers have been investigating desirable locations and several investments in real estate have been made. The next thirty days is going to witness a wonderful change in Beaver and surrounding country.

SHELF HARDWARE

WE HAVE CLIMBED THE LADDER OF SUCCESS IN OUR HARDWARE BUSINESS BY ATTENDING STRICTLY TO BUSINESS.

NARROWLY ESCAPES RATTLESNAKE BITE

Mrs. Anna Patrick came near meeting with a serious accident yesterday morning. In some way or other a large rattlesnake had gotten into her house, just north of the White House hotel, and while Mrs. Patrick was going about her morning work she discovered it but not until she was right on it and it struck at her, striking her on the lower limb. In some miraculous manner the fangs did not penetrate her hose and she managed to get out of reach before it struck again. Unfortunately the snake escaped.

GROVES-FOWLER.

A quiet wedding ceremony was performed at the office of the County Judge Tuesday afternoon, August 3d, when Mrs. Cornelia J. Groves and Fowler, both of Elmwood, were united in marriage, Judge Spohn officiating. The contracting parties are both well known in the community in which they reside having lived on Clear creek for many years, and have many friends who will join the Herald in extending congratulations and wishing them happiness in future life.
